

PERSONA 3-4 — DILETTA & SAMUELE

PERSONA 1 — DILETTA

Diletta R.

"I love stumbling into places I didn't plan — that's where the best memories happen."

Motivation

- Escape the afternoon heat and find something interesting to do with her friends.
- Discover something "cool and mysterious" connected to local culture.
- Enjoy an experience that feels different from the usual beach-aperitivo routine.
- Share something visually striking on social media.

Frustration

- Long, boring explanations full of technical terms.
- Museums that feel too formal or "for experts only."
- Experiences that require too much reading or patience.
- Not understanding the meaning of the symbols or the story behind them.

Goals

- Have a memorable, easy-to-follow cultural experience.
- Learn something surprising about ancient rituals and symbols.
- Feel immersed in a mysterious environment without needing prior knowledge.

- Leave with a sense of “wow, I didn’t expect this.”

Bio

Diletta is a 32-year-old office worker from northern Italy. She didn’t study at university, but she’s curious and loves astrology, myths, and anything with a mystical vibe. She’s in Puglia on holiday with two friends, looking for activities that mix culture and relaxation. After hearing about the Deer Cave at the local tourist office, she decides to visit the museum because the idea of an inaccessible, secret cave full of ancient symbols fascinates her. She wants an experience that is intuitive, visually engaging, and emotionally evocative — something she can enjoy without needing deep archaeological knowledge.

- **Age:** 32
- **Work:** Administrative assistant
- **Family:** Single, no kids
- **Location:** Verona, Italy
- **Character:** The Curious Explorer

PERSONA 2 — SAMUELE

Samuele V.

"If there's a story behind something, I want to understand how it works — and why it matters."

Motivation

- Learn about prehistoric art and symbolic systems in a structured, reliable way.
- Understand the scientific methods behind the cave’s study and 3D reconstruction.
- Explore a site that is normally inaccessible and therefore scientifically intriguing.
- Compare interpretations and hypotheses, not just see images.

Frustration

- Lack of clear scientific references or sources.
- Overly “touristic” or superficial explanations.
- Experiences that don’t allow deeper exploration or optional layers of information.
- Poor-quality digital reconstructions or unclear visuals.

Goals

- Access high-quality, well-organized information about the cave.
- Explore the pictograms with zoom, layers, and interpretive alternatives.
- Understand the archaeological context and the cave’s fragility.
- Experience a digital environment that respects scientific accuracy.

Bio

Samuele is a 27-year-old engineering student from Verona. He’s not an archaeologist, but he has a strong interest in history, technology, and how digital tools can reveal hidden aspects of the past. He’s visiting Puglia with his girlfriend and chooses the Deer Cave museum because he’s fascinated by inaccessible sites and scientific reconstructions. He appreciates clear explanations, optional deep dives, and interactive tools that let him explore at his own pace. He represents a visitor who is educated, curious, and eager to understand the “how” and “why” behind cultural heritage.

- **Age:** 27
- **Work:** Engineering student
- **Family:** In a relationship
- **Location:** Verona, Italy
- **Character:** The Analytical Learner
